CHRISTIAN SCIENCE
A Lesson-Sermon on "Life" will be delivered Sunday, in all branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass.
One of the Scripture selections in the Lesson-Sermon presents the following exhortations from Deuteronomy: "All the commandments which I command thee this day shall ye observe to do, that ye may live, and multiply, and go in and possess the land which the Lord swore unto your fathers. And he humbled thee, and suffered thee to hunger, and fed thee with manna, which thou knewest not, neither did thy fathers know; that he might make thee know that man doth not live by bread only, but by every word that proceedeth out of the mouth of the Lord doth man live."
A correlative passage from the Christian Science text book "Science and Health with Key to the Scriptures" by Mary Baker Eddy, states: "Being is holiness, harmony, immortality. It is already proved that a knowledge of this, even in small degree, will uplift the physical and moral standards of mortals, will increase longevity, will purify and elevate character. Thus progress will finally destroy all error, and bring immortality to light."
